DETAILED ACTION

Election/Restriction

1. Applicant's election with traverse of Group II - claims 69-77 in Paper No. 6 is acknowledged. The traversal is on the ground(s) that both Groups I and II relate to a method of using a compound and semiconductor nanocrystal associated with the compound. This is not found persuasive because the methods of Groups I and II recited different method steps and thus require a different search strategy to be able to search both methods of Groups I and II.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 U.S.C. § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35

Art Unit: 1641

U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 69-77 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Weiss et al or Weiss et al.

Weiss et al (US Patent 5,990,479) and Weiss et al (US Patent 6,423,551) both disclose luminescent semiconductor nanocrystal compounds and methods of assay using a plurality of the nanocrystals to detect multiple analytes simultaneously (see col. 10, line 59, to col. 11, line 8, of '479 and col. 11, lines 51-67, of '551).

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chris Chin whose telephone number is (703) 308-3991. The examiner can normally be reached on Monday-Thursday from 10:00 am to 7:30 pm. The examiner can also be reached on alternate .
